Languages: PHP 8, Python, JavaScript (ES6+), SQL   **Frameworks**: Laravel, Bootstrap 5, Tailwind CSS, Vue.js

Databases: MySQL, PostgreSQL, Redis   **Tools**: Git, Docker, Composer, Stripe API

Concepts: RESTful APIs, MVC, OOP, CI/CD   **Design**: UI/UX, Responsive Design, Motion UI

Professional Experience

Atif Iy   **Muzaffarabad, Pakistan**

Principal Web Developer   *Jan 2023–Present*

Leading full-stack development for diverse client projects.

- Architecting secure, scalable Laravel backends for high-traffic applications.
- Designing immersive, animated frontend interfaces using modern CSS3 and JavaScript.
- Optimizing database queries to reduce load times by up to 40%.
- Mentoring junior developers and establishing code quality standards.

M-Tech Systems   **Pune, India**

Web Developer & Designer (Remote)   *Jan 2021–Jan 2023*

Collaborated with cross-functional teams to deliver web solutions.

- Developed and maintained modular codebases for corporate web applications.
- Implemented responsive designs ensuring 100% cross-browser compatibility.
- Integrated third-party APIs (Payment Gateways, Social Auth) to enhance functionality.

Global Clients   **Remote**

Freelance Full-Stack Engineer   *Jan 2020–Present*

Successfully delivered 20+ projects ranging from e-commerce to management systems.

- Built "Noor Fabric", a multi-vendor e-commerce platform with Stripe integration.
- Developed custom inventory management systems handling thousands of SKUs.
- Created real-time dashboards for sales tracking and analytics.

Key Projects

Corporate Website

SJDGND Official Platform

Spearheaded the complete digital transformation of the SJDGND platform. Delivered a highly responsive, SEO-optimized, and performant web solution, significantly improving user engagement and accessibility. Live at sjdgnd.com.

Noor Fabric

Multi-Vendor E-Commerce Platform

Developed a high-end e-commerce system featuring vendor management, dynamic product categories, shopping cart functionality, and secure Stripe payment integration. Live at noorfabric.com.

Web Application

AI Voice Changer

A web-based audio processing tool leveraging Python and AI models to transform voice inputs in real-time. Features include low-latency processing and a modern, glassmorphism-based UI.

Enterprise Solution

Installment Management System

A comprehensive financial suite for managing staff, expenses, products, and installment plans. Fully integrated with Stripe for automated billing and payment tracking.

Personal Brand

Animated Portfolio

Designed and developed a high-performance, animated portfolio website using advanced CSS3, JavaScript, and Canvas particle effects to showcase technical skills. Live at atifiy.com.

Distributor Solution

Inventory Management System

Built a robust system to track products, manage vendors, and generate invoices. Exposed a RESTful API to sync data with a mobile Flutter application for field agents.

Retail Application

Custom Point of Sale (POS)

Designed a tailored POS solution for retail businesses to streamline checkout processes, manage stock levels in real-time, and generate sales reports.

Mobile/Web App

Soccer Championship Manager

An application for managing tournaments, leagues, and single matches. Includes features for team management, score tracking, and player statistics.

Education

University of Azad Jammu & Kashmir

Bachelor of Science in Computer Science & IT   *2019–2023*

Focus: Software Engineering, Web Technologies, Database Systems.

Certifications

National Freelancing & Training Program

Technical Web Development   *2022*

Specialized training in modern web stack technologies and freelancing strategies.

Key Strengths

- Scalable System Architecture
- API Integration & Security
- Performance Optimization
- High-End UI/UX Design
- Agile Methodology
- Complex Problem Solving
